IMA BOF

A discussion of the need for more focus in the IETF on middleware, or applications that applications use.

stev knowles, stev@ftp.com

for the IESG, iesg@cnri.reston.va.us

ground rules, or the chair reserves the right to:

- run the meeting
- direct the meeting's direction
- mark a subject as closed
- limit a speakers time to stating his case, and letting the group move on

things that are off limits

- discussions about moving existing working groups into this proposed area
- past transgressions or failures
- religion

results

- create a “cookbook” for IETF WGs
- promote agressive directorates
- non-area based directorates?
  - this has problems in areas like selection of members.
- NO NEW AREA
